FOUND SULPHIDES

A New Development in Manhattan Shows Permancy

"The finding of sulphides ores is the Seylor-Humphrey mine at Manhattan indicates that the merit of that camp is not merely of a transitory nature," said L. E. Burke, a Colorado mining engineer from the south, where he has been engaged in the interests of Denver people.

"The find was made a few days ago in the west drift of the main working tunnel at a depth of forty-five or fifty feet. Heretofore the supposition has been that sulphides would not be encountered in Manhattan except at great depth but this theory has been knocked sky high by the discovery made this week.

"The activity in Manhattan is wonderful considering the age of the camp. There are several properties sending out small shipments and within the year it will become one of the state's biggest producers. Nevada operators are certainly establishing a new record for rapid development."

Mr. Burke left this morning for Colorado to make a report to his associates on several properties that he examined.—Gazette.

To Pay Up Its Losses

LONDON, May 7.—The American steamer St Paul, which sailed from Southampton for New York today, took \$1,850,000 in gold, most of which is destined for the agents of British insurance companies to meet their San Francisco claims.

Untrue

J. G. Driscoll, supervisor of the Nevada Insane asylum, states that the testimony of Indian Dick Richardson given at the inquest over the remains of the woman found in the river at few days ago was untrue.

Newland a Statesman

The St. Paul, Minnesota, Dispatch, a radical Republican paper, has this to say of Senator Newlands: "Nevada, at last, quits sending silver miners to Congress, and sends a man, who measures up the standard of statesmen. It is when he discusses the question of rate control that we find further evidence that the sagebrush politician has disappeared, and a statesman comes to judgment."

Rewards Offered

The undersigned will pay a reward of twenty dollars for the arrest and conviction of anyone who unlawfully kills any song bird or other bird protected by the law.

COMING TO THE FRONT

Outside People Taking Interest in Pine Nut

E. Gibeau and George McKilligan have just returned from the Pine Nut Mining district where they are interested, with George and Charles Brown of the Gardnerville hotel, in several very promising mining properties.

Miners are now engaged in sinking a shaft for them to tap the ore shoot at the bottom of the present incline where pay ore is believed to exist in large quantities.

Pine nut district, they declare, is again coming to the front. There are splendid copper propositions there, and all that is needed is the necessary capital to develop the district.

Gibeau and McKilligan brought several samples with them and local mining men have expressed themselves as most favorably impressed with the ore. The property in which they are interested is called the Lone Pine Claim and is 12 miles from Gardnerville.—Journal.

Representatives Chosen.
